## THE FINAL CHAPTER OF MP4MENTORS JOURNEY

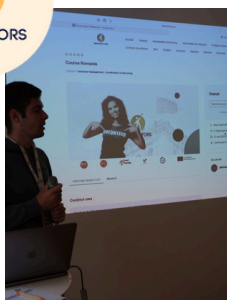

The MP4 Mentors project is now in its final stage after two years of collaboration among five European partner countries. The project's goal was to enhance the capacity of youth workers and volunteer coordinators by providing practical tools and digital resources to improve volunteer management. We are excited to present our key deliverables: the MP4 Mentors Guide, accessible in five different languages, a practical resource for educators and coordinators, and the e-learning platform, mp4mentors.eu.

## FINAL CONFERENCE IN SWEDEN

To mark the end of the project, MIR organized a two-day closing event in Sweden on May 21–22, 2025. On the first day, a multiplier conference was held where the project and its results were presented to a group of Swedish stakeholders, youth workers, and representatives from local organizations involved in volunteer coordination. The goal of the conference was to share our experiences, showcase the tools we developed, and discuss the challenges and opportunities in volunteer management in today's world.

## FINAL TRANSNATIONAL MEETING

On the second day, partners gathered for the final Transnational Project Meeting (TPM). The agenda included a welcome and overview by MIR, piloting reports from all partners, and a presentation by VAEV on the status of Work Package 4. It was confirmed that the e-learning platform is finalized, available in five languages, and that all piloting events and seminars have been completed.
